Entitlement to register

Under the *Education (General Provisions) Act 2006* (Qld), a prescribed state school may register an applicant if they are eligible for registration. While not exhaustive, a list of matters which may affect an applicant's entitlement to registration are included on the front page of this form.

Questions which must be answered*

This Application for Registration for entry into a pre-Prep learning program contains a number of questions marked with (*) which **must** be answered. These include: demographic, address and family details, country of birth, emergency contact details, medical information and the application to register form. These questions and consent are considered necessary to ensure the school can undertake its administrative and care responsibilities.

Sections of the form *not marked* (*) are optional. However, failure to complete these sections may result in the service refusing to register the child in the program.

Sighting of birth certificate and Health Record/Immunisation History Record

Services are required to sight a child's birth certificate. An alternative to a birth certificate will be considered where it is not possible to obtain a birth certificate (e.g. child is born in a country without a birth registration system – a passport or visa documents will suffice, or in a remote Indigenous community where hospital birth records are deemed sufficient).

Under the amended *Public Health Act 2005* (Qld), services are required to sight either an up-to-date, completed Health Record or, preferably the child's Immunisation History Record (IHR). If the parent/caregiver is unable to provide an IHR and is unable to obtain one from the medical service or other request channel, the service can ask that they complete the relevant consent form and obtain the record through the Health and Hospital Service.

Name on registration form

A child should be registered under their legal name as per their birth certificate/hospital birth record. There is also a provision to record a child's preferred family and given name, and at the parent's request, the preferred name will be used to interact with, and about, your child.

Medical information and emergency contacts

A child's medical condition, symptoms, management and medication/s must be documented. Medical conditions may include (but are not limited to) seizures/epilepsy, fainting, diabetes, asthma, heart problems, anaphylaxis and allergies (such as food or insect stings). Parents must indicate if they are an emergency contact. Three additional emergency contacts are also required. Information must also be provided regarding the child's immunisation status.

Court Orders

Any court orders concerning the welfare, safety or parenting arrangements of children should be provided to the school by parents, and the school should also be provided with any new or updated orders.
